

The Water Balloon That Won't Pop

Heat Absorption | Science Lab | Grades 1-2 | Week 3

FIRE + WATER

Name: _____ Class: _____ Date: _____

1. MY PREDICTION

What do you think will happen when the teacher holds the water balloon over the flame?

BANG! It will POP!

Hmm... Not sure...

It stays **WHOLE!**

I think this because:

2. WHAT I SAW

Draw what you saw:
(balloon + flame + arrows)

The AIR balloon:

The WATER balloon:

3. WHERE DID THE HEAT GO?

Fill in the blanks to show the path of heat:

FLAME --> **RUBBER** --> _____ (absorbed the heat!)

4. WHAT I LEARNED

The water balloon did NOT pop because:

5. WATER ABSORBS HEAT IN REAL LIFE!

Firefighters

Water puts
out fires!

Car Engines

Water keeps
engines cool

Sweating

Sweat cools
your body

Cooking

Water heats
your food

6. SCIENCE WORDS

Heat Energy

Energy from
hot things.

Heat Absorption

Soaking up
heat (like water!)

Heat Transfer

Heat moving
to another object
